

Category 1 - 3 Point Hitch Rear Ballast Box

Basically this is nearly a square sheetmetal box **with an open top** with 3 point hitch pins set near the edge of the box, to allow a Cat 1 quick hitch adapter to easily connect to it.

Holes in topline tabs allow standard Cat 1 3/4" topline pin to slide through
Holes in side of box allow standard Cat 1 7/8" lift arm pins to be mounted

Total volume is about 9.3 cu feet and
should weight about 1200 lbs when filled
with concrete.
