

Our well proven Safety Grip 6x7 mm square link chain is available for wide range of tires!  
It is made for those who:

- Need a light chain for a variety of tasks such as local snow removal, yard and field work etc.
- Don't get enough grip with studded tires.
- Mount and dismount the chain quite often.
- Drive on changing road conditions.
- Fitting video: <http://www.youtube.com/watch?v=1vWU2Opxilo>
- 

---

Wear bars on every horizontal link ensure the best possible grip and life length!

Hard spinning and off road use may damage the chain.

For heavy work like professional snow removal, off road use and similar, we recommend the SMT Flexi.

Each of the TRYGG Safety Grip 6x7 chains is made to fit several tire dimensions. The user must in some cases cut the chain to get a proper fit.
